LOCATION

Pune, Maharashtra

POSITION

01

Joining our highly successful team of entrepreneurs and international investors, you will have a unique opportunity to advance your career by playing a crucial role in architecting and implementing the mobile platform for DocPlexus. You will engage with best minds in Indian startup ecosystem and scale an app which will shape the face of Indian healthcare with a very high degree of personal impact.

If this sounds like the right job for you, I would be very happy to learn more about you and explore joint possibilities of growth.
